Who appears in the star role of "Jerry", the tramp, in the play "A Convict's Honor", which will be presented by home talent at the Auditorium tonight for the benefit of the Hondo Volunteer Fire Company.

"A Convict's Honor" has, ever since its first production, proven one of the most successful dramas ever written. It enjoyed a long run in England, several months of the time in London, and has delighted audiences in New York, Chicago and, in fact, all the principal cities of the country. It tells the story of a man who was sent to prison for a crime of which he was innecent, he escapes, becomes a common tramp - his innocence is afterwards established.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

orld's Pure Food Exposition, Chicago, III. aris Exposition, France March, 1912.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical - more wholesome - gives best results. Calumet is far superior to sour milk and sode.

Europe Recognizes Calumet's Supremacy.

France has always been famous as the land of good cooks, but it seems now that America has something to teach the French chefs in the line of baking. For at the exposition held in Paris last March, Calumet Baking Powder was awarded the Grand Prize and the Gold Medal and officially recognized as the world's best baking powder.

This was only to be expected, however, as Calumet once before was judged the finest baking powder on the market. This occurred at the World's Pure Food Exposition in Chicago, 1907, at which time it was given the highest awards over all competitors.

The fact that it has twice out-classed all other competitors indicates beyond a doubt that there is really no comparison between Calumet and other brands.

Calumet is easily the purest baking powder made. It is always uniform and so reliable, it is said, that women who use Calumet do not know what it is to have a baking fail.

J. P. "The evil men do lives after them" and for years toiling sorrow will bend to the burden this modern Midias placed upon them that he might gather more to his horde.

WITH its last issue the Hondo Anvil Herald completed its thirteenth volume, and with the hoodo number left behind it, seems to have a good chance to make even a greater success than it has experienced in the past. And to the above it might be added that what has been done has been accomplished in the face of four Mr. Licklider's business card elsecompetitors in its original field, one of which, because the Anvi Herald would not straddle the fence but took an open stand for what it believes was right, was heavily bonused with the avowed intention of driving the Anvil Herald out of business. But thanks to our friends we are still growing. Now is the time to subscribe.

Love is the only despot against whose tyranny no nation ever rebels; his yoke is the twining of tender arms, and the crack of his whip is a guileless kiss. Love is a royal minstrel; he scales the harp strings of song and serenades the soul. Ask Yourself the Question_

What do I need in lumber? Then take your pencil and make a memorandum of the various items and bring the bill to us for an estimate. Of course, you might get an estimate somewhere else, if you care to, but don't buy a foot of material until you have learned our price. There's a reason. And the reason is that we will give you as good lumber for less money, or better lumber for the same money than you can get elsewhere. T'Nuf sed.

WAGNER AND "THIRTEEN."

The Great Composer's "Combination" Recalled by the Year 1913.

"Let those who are superstitious, who Fenr that the year 1913 will be one of disaster and hard luck, read the Wagner thirteen combination," says a writer in a Munich paper, "and be cured or have their superstitious notions con-Mirmed.

"Richard Wagner-it takes thirteen letters to write the name-was born May 22, 1813. M is the thirteenth letter of the alphabet, and one plus eight plus one plus three equals thirteen. The Wagner operas number thirteen. When Weber died Wagner was thirteen years old. The lad heard a performance of the 'Freischutz,' under the leadership of its composer, on Oct. 13, 1824, and there determined on a musi-

"Wagner's first place as a director was at the Stadt theater, in Rign, when the began the duties on Sept. 13, 1837. He finished 'Tannhauser' on April 13, 1814, and heard it bissed at Paris on March 13, 1861. It was loudly applanded on May 13, 1895. The composer was banished from Saxony for thirdeen years.

"The great auditorium at Baircuth was dedicated on Aug. 13, 1876. It was there that the master finished the 'Parsifal' score on July 13, 1882, and on Sept. 13 of the same year he went south on a trip from which he never returned alive. He died in Vienna on Feb. 13, 1883, in the thirteenth year of Germany's Imperial era.

THE OLDEST CHESTNUT TREE

Penneylvania Has One at Least 221 Years of Age.

On the farm of Irwin H. Schantz, who lives near Spinnerstown, Bucks county, Pa., stands a mammoth chestaut tree, one that eclipses all the rest of the giant chestnut trees in the Keystone State. Two feet above the ground the circumference of the trunk of this tree measures exactly thirtysix feet. The tree's height is sixty feet, and ten feet from the ground are two branches, one to the left and the other to the right, and the circumference of the former is eight feet; the latter nine feet two inches. Ten feet above the ground its great branches extend, one of them six feet four inches in circumference, each of the others a few inches less. Its boughs spread nearly ninety feet.

The age of the tree is known to be at least 221 years, from tales told by ancestors of the proprietors of the property on which the tree stands. No one ever thought of cutting this giant down, except in 1876, at the time of the centennial in Philadelphia, when the exposition commission offered the proprietor \$100 for an unbroken section of the trunk one foot from the ground. What saved the mammoth from destruction was the race that no saw long enough to cut it could be procured.

With luxuriant foliage like that of a young tree, the monster chestnut still bears abundant crops.

New Type of Aeroplane.

While the aeroplanes now in use are based on the kite principle of sliding on the air, a Dresden engineer. Herr Baumquertel, is showing another type in the arena of Johannisthal, near Berlin. His muchine has no plane, but is provided with two horizontal propellers arranged one above the other. If both are rotating in opposite directions the air between them is pressed down ward and forms a column, lifting up the whole apparatus. The motion onward is produced by another propeller or by including the fore part a little down ward. The grent advantage of this ingentous invention is the ease with which the apparatus ascends vertically But there is the drawback that with the slightest defect of the motors the fate of the aeronaut is sealed, as the whole machine drops like a stone, there being no possibility of softening the fall by sliding gently through the air .-

Pronouncing Goethals' Name.

I don't know whether Mr. Goethals of l'anama canal fame is a Belgian or not. If he is not he ought to be, he cause Belgium is full of Goethalses. That name is common in my native town and province. No need, thus, of consulting the German language to keep in the right track for the pronun clation of that name. Cut it into two syllables-namely. Goet and bals. Now, make goet sound as boot in to hoot; suppress the sound of "b" in hals and say sis with the sound of the "a" as in the word father. He sure to put fully the accent upon the first syllable and let the whole word go as gootals.- Rochester Express.

White House Fire Risk.

In case of fire at the White House according to an insurance writer, the historic residence of the presidents would be gravely imperiled. Coloner Spencer F. Crosby recently petitioned the commissioners for the District of Columbia to lay additional water mains to the White House grounds The commissioners said that this matter was beyond their power and that only an act of congress could make this work possible.- New York Sun.

Fungi.

The department of agriculture has sent out a circular letter concerning fungi which will both enlighten and umaze the fascinated reader. For in

"Definition of fungi, section 6: The term fungt is understood to mean all nonchorophyll bearing plants of a lower order than mosses and liverwarts. ponchlorophyll bearing thallophytes."

Seems simple, doesn't it?- Cleveland Plain Dealer.
